

Dear Property and/or Business Owner:

The outrageous facts are that more than 90 million lawsuits are filed in the U.S. each year. Some people estimate that a lawsuit is filed every 30 seconds. We have more attorneys per capita than any other nation on earth. There are 700,000 practicing attorneys and 130,000 in law schools. To support their firms, families and lifestyles, most of these attorneys are compelled to manufacture law suits even though the vast majority may even be frivolous.

Lawsuits are expensive and often devastating. Nearly everyone underestimates his or her own vulnerability and risk when their assets, property or business is attacked. The chance that you may escape a lawsuit is slim to none. Even one lawsuit with little or no protection could destroy your financial savings just in legal fees alone, not to mention the lasting negative impact on your future. The **ultimate answer** to Judgment-Proofing Assets, Property and Business is the **Family or Business Texas Joint-Stock Company/Living Trust Combination**. Our legal association has access to **over forty (40) years** of research, study, and experience in legal entities and judgment proofing of assets, property and business.

If you are contemplating the future setup and use of a corporation, limited liability partnership, limited liability company, general Partnership, business trust, etc., or already have one in a private closely-held situation, we would like to ask you an important question:

Question: What was the major reason for setting up a corporation, limited liability partnership, limited liability company, etc.?

The vast majority of people will answer that the reason is for the limited liability of shareholders or partners, individually. However, this liability protection has been severely limited by the courts. Additionally, there are three (3) other types of liability that need to be addressed, of which most people are unaware.

The Texas Joint-Stock Company/Living Trust Combination gives you the ultimate total liability

protection for the shareholder by an equivalent legal means that has not been severely limited by the courts. There is considerable book, chapter and verse of statute law along with court cases that uphold the legal principles involved for the four (4) types of liability that need to be considered.
